To whom it may concern,

I'm Keith Udy, with Atkore here in Pendleton. We are a manufacturer of PVC pipe, with other parts of our company creating things like fittings, different kinds of cables, and an array of similar industrial goods.

We have been using EcoClean 360 for about half of a year now, and are very happy with the service thus far. With other companies, we had issues with the quality of work, their professionalism, and their pricing. However, we have encountered none of these problems with James or with EcoClean. Many people at our facility comment on how much cleaner it is around here after bringing in EcoClean, and James has based the company on accountability through and through – this reflects in their work. Additionally, James is incredibly easy and reassuring to work with. He's very good about keeping in touch with us and making sure that we're satisfied with the service being performed, and is diligent on resolving any issue that may arise. To top all this off, the rates for EcoClean are very reasonable and to refer back to James' professionalism, very clearly communicated. No surprises or unexpected fees. Just a fair price for a great service and easy to work with people.

To summarize, I would recommend EcoClean 360 over any other service that we've worked with. You will not be disappointed.

Thank you,

Keith Udy (he/him)
